### Helmet Camera System

Introducing the first video system designed exclusively for total joint surgeons!

Enjoy continuous camera operation and the included LIVE VIEW wireless monitor link for the ultimate in total joint education.

With our easy to use system, you can simply share your live view with everyone in the room, or record into the camera or into your OR video recording system. If you've ever wondered, "Can my students *See What I See?*" during a case, with our Total Joint Helmet Camera System, now you know they can!

### Surgical Headgear Packages for GoPro®

If you're serious about surgical video with your GoPro®, our Surgical Headgear packages were designed for you!

Our unique headgear design centers the lens between your eyes, allowing you to capture your true point-of-view. Adjustable to any angle, our mount was designed as a tool for all surgeons.

#### OPTIONAL ACCESSORIES

Created to allow surgeons to fully utilize their GoPro® as a surgical camera, packages include:

- HD Wearable displays
- Portable Monitors
- LIVE VIEW kits
- Battery packs
- Carrying cases

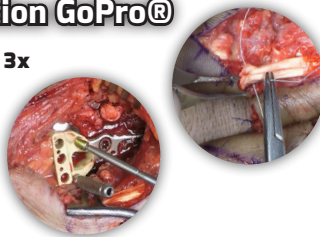

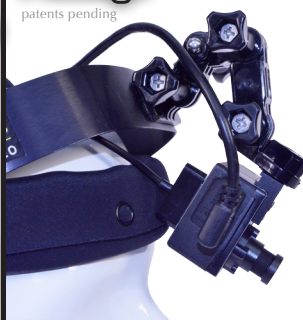

Optional HD Wearable display
